

Scientific Poster Program – v2 FINAL

AMD POSTERS 101 - 134

101

Serum and Proinflammatory Cytokines Affect the RPE in a Culture Model of Macular Degeneration

Ron Adelman

102

The Correlation of Retinal Thickness and Macular Sensitivity as Measured by Microperimetry in Exudative Age-related Macular Degeneration

Omar Ahmad

103

Knockdown of the Placental Growth Factor (PlGF) Gene Inhibits Laser Induced Choroidal Neovascularization in a Murine Model

Hamid Ahmadi

104

Changes in Lesion Size with Combination Reduced-Fluence Photodynamic Therapy (RFPDT) and Ranibizumab Versus Ranibizumab Alone

Gregory Blaha

105

Software Integrating Medical Reading, Data and Patient Management Can Optimize Follow-up Care and/or Triage for Wet AMD

Marie Boucher

106

OCT-based Detection and Treatment of Asymptomatic Subretinal Fluid in the Second Eye in Exudative AMD

Claudia Brue¹

107

12-Month Interim Visual and Dosing Results from the Dodo Study: 1.0 Mg Ranibizumab for Exudative Macular Degeneration

Brandon Busbee

108

Evaluation of Differential Sensitivity of Retinal Ganglion Cells and Choroidal Endothelial Cells to Proton Beam Radiation: a Model for Study of AMD

K. V. Chalam

109

A Prospective Study of Intravitreal Ranibizumab for Treating Vascularized Pigment Epithelial Detachment Due to Age-related Macular Degeneration

Clement Chan

110

Idiopathic Polypoidal Choroidal Vasculopathy in Patients with Neovascular Aged-Related Macular Degeneration Failed to Respond to Anti-VEGF Therapy

Ching Chen

Scientific Poster Program – v2 FINAL

111

A Phase 1 Investigation of iSONEP, a Sphingosine-1-phosphate Monoclonal Antibody for Wet AMD in a Subset of Subjects with PED

Thomas Ciulla

112

Monthly Versus PRN Ranibizumab for Neovascular Age-related Macular Degeneration: a Randomized Phase 2 Open-label Study Using High Resolution OCT

Ron Gallemore

113

Analysis of Choroidal Thickness in Age-related Macular Degeneration Using Spectral Domain Optical Coherence Tomography

Jordana Goren

114

Intravitreal Bevacizumab Monotherapy for Recent Submacular Hemorrhage (SMH) Secondary to Neovascular AMD

Kamal Kishore

115

Visual and Anatomic Outcomes of Intravitreal Anti-VEGF Therapy for Exudative Age-related Macular Degeneration with Significant Epiretinal Membrane

Veronica Kon-Jara

116

Meta-Analysis of Endophthalmitis after Intravitreal Injection of Anti-VEGF Agents: Causative Organisms and Possible Prevention Strategies

Colin McCannel

117

Response to Scheduled Monthly Ranibizumab for Polypoidal Choroidal Vasculopathy in Patients Previously Treated with Intermittent Anti-VEGF Therapy

Eugene Ng

118

The Efficacy and Economics of Inject and Extend Ranibizumab Monotherapy for Wet AMD

John Niffenegger

119

OSCILLATORY Photodynamic Therapy (OPDT) with Adjunctive Dexamethasone and Bevacizumab in management of CNV and CSR

Gholam Peyman

120

One-year Results of Intravitreal Ranibizumab with or Without Photodynamic Therapy for Polypoidal Choroidal Vasculopathy

Young Jung Roh

121

Aqueous VEGF Level after Intravitreal Injection of Bevacizumab, Pegaptanib, or Ranibizumab in Patients with Age-related Macular Degeneration

Osamu Sawada

Scientific Poster Program – v2 FINAL

122

Treatment strategy for the wet-age related macular degeneration (AMD) with rt-PA and anti-VEGF

Joerg Schmidt

123

Correlation of International Normalized Ratio (INR) and Subretinal Hemorrhage in Patients on Coumadin with Neovascular Age-Related Macular Degeneration

Ashish Sharma

124

The Comparative Safety of Intravitreal Bevacizumab Versus Ranibizumab for Retinal Disease

Sanjay Sharma

125

Intravitreal Ranibizumab for Non-asian Polypoidal Choroidal Vasculopathy

Harinderjit Singh

126

Prevalence and Severity of Blepharitis Symptoms and Signs Amongst Patients with Age-related Macular Degeneration

Rishi Singh

127

Fundus Fluorescein Angiography (FA) Complements OCT in Detecting Active Leakage in Patients with Exudative AMD

Homayoun Tabandeh

128

Multicenter Randomized Clinical Trial of Ranibizumab Monotherapy vs Combined Ranibizumab and Photodynamic Therapy for Choroidal Neovascularization

Patrick Williams

129

Intravitreal Bevacizumab (IVB) Monotherapy for Idiopathic Polypoidal Choroidal Vasculopathy (IPCV)

Jay Chhablani

130

Fundus Autofluorescence Patterns in Type 2a Nonproliferative Idiopathic Macular Telangiectasis.

Jay Chhablani

131

Analysis of Outer Nuclear Layer via Spectral Domain Optical Coherence Tomography (SD-OCT) in Normal and Dry Age-Related Macular Degeneration Patients

Namrata Nandakumar

132

Correlating Macular Pigment Density with Dietary Lutein and Skin Carotenoid Level: Effect of Age and Ethnicity

Suman Pilli

133

A Novel Strategy for Identifying and Quantifying Geographic Atrophy in Dry AMD Using Spectral Domain OCT

Zohar Yehoshua

Scientific Poster Program – v2 FINAL

134

Comparison of Drusen Area Detected by Spectral Domain OCT and Color Fundus Photography

Zohar Yehoshua

DIABETIC RETINOPATHY POSTERS 201 - 219

201

Intravitreal Bevacizumab Vs Laser Photocoagulation for Diffuse Diabetic Macular Edema: Results from the Pan-american Collaborative Retina Study Group

Arturo Alezzandrini

202

Anti-VEGF drugs/Steroids plus Laser for the Treatment of Macular Edema in Diabetics and Patients Suffering from Venous Occlusive Disease

Albert Augustin

203

Role of Combined Cataract Surgery and Intravitreal Ranibizumab Injection in Preventing Postoperative Macula Edema of Diabetic Retinopathy

Ju Byung Chae

204

Recurrent Vitreous Hemorrhage Following Diabetic 23-gauge Pars Plana Vitrectomy

Allen Chiang

205

Use of Image Stabilized Guided Laser to Treat Focal Retinal Disease; the Navilas System

William Freeman

206

Single Session Panretinal Photocoagulation for Proliferative Diabetic Retinopathy Using Low Fluence Parameters

Gerardo Garcia-Aguirre

207

High Dose Ranibizumab in the Treatment of Diabetic Macular Edema

Jonathan Gloth

208

Silicone Oil in the Management of Diabetic Traction Detachment Using Transconjunctival 25-gauge Pars Plana Vitrectomy: a Retrospective Case Review.

Heather Hancock

209

Intravitreal Bevacizumab as a Preoperative Adjunct in 23g Vitrectomy for Advanced Proliferative Diabetic Retinopathy

Sergio Hernandez-Da Mota

210

Absorption of Preretinal Hemorrhages in Eyes with Heavy Silicon Oil (Densiron) and Diabetic Retinopathy

Sergio Hernandez-Da Mota

Scientific Poster Program – v2 FINAL

211

Panretinal Photocoagulation (PRP) Versus PRP Plus Intravitreal Ranibizumab (Lucentis®) for High-Risk Proliferative Diabetic Retinopathy (IRaHi Study)

Rodrigo Jorge

212

A Phase I, Open Label, Dose Escalation Study of Intravitreal Ico-007 for the Treatment of Diffuse Diabetic Macular Edema

Geeta Lalwani

213

Sub-threshold Laser Treatment of Clinically Significant Macular Edema in Diabetic Patients

Anat Loewenstein

214

Assessment of Long-term Safety and High Resolution Imaging of High-density Subthreshold Diode Micropulse Photocoagulation for Diabetic Macular Edema

Jeffrey Luttrull

215

Single Grid Pattern Laser Treatment for Diabetic Macular Edema Using a Minimum of 900 Sub-threshold Spots

Hugo Quiroz-Mercado

216

Comparison of E-ETDRS Visual Acuity Testing after Autorefraction Versus Manual Refraction in Eyes with and without Diabetic Macular Edema

Jennifer Sun

217

Rascal: a Pilot Study Assessing Efficacy of Ranibizumab + Peripheral Scatter Laser in Diabetic Macular Edema Associated with Peripheral Nonperfusion

Ivan Suner

218

The Clinical Efficacy of a Diabetic Retinopathy Care Team in the Management of Patients Requiring Diabetic Laser Treatment

Edmund Wong

219

Intravitreal Infliximab for Refractory Pseudophakic Cystoid Macular Edema: a Pilot Study from the Pan American Collaborative Retina Study Group

Lihteh Wu

HEREDITARY/PHARMACOLOGY/TRAUMA POSTERS 301 - 312

301

Foveal Structural and Functional Findings in Patients with Pattern Dystrophy

Ravi Keshavamurthy

302

Thirty-Year Follow-up of an African-American Family with North Carolina Macular Dystrophy

Daniel Kiernan

Scientific Poster Program – v2 FINAL

303

Prognostic Factors Affecting Visual Acuity in Retinitis Pigmentosa

Cinoo Kim

304

Intravitreal Injection of Autologous Bone-marrow Stem Cells for Hereditary Retinal Dystrophy: A Phase I Trial

Andre Messias

305

Multifocal Electroretinography in Type 2 Idiopathic Macular Telangiectasia

Raja Narayanan

306

Intravitreal Bevacizumab for Recurrent Central Serous Chorioretinopathy

Ron Adelman

307

Successful Treatment of Choroidal Neovascularization in Pathologic Myopics with Posterior Sub-Tenon Bevacizumab Injection

I-Chia Liang

308

Infliximab: Toxicity and Retinal Penetration in Primates

Gustavo Melo

309

Optic Nerve Dysfunction and Disc Edema Associated with Long Term Use of Anastrozole

Ramin Monshizadeh

310

Utility of Methotrexate in Chronic Central Serous Retinopathy: a Retrospective Analysis

Armando Oliver

311

Bevacizumab and Ranibizumab Differ in Their Binding Ligands and Affinity to Human Retinal Pigment Epithelium and Vascular Endothelium Cell Membrane

Tongalp Tezel

312

Vitreo-Retinal Interface (VRI) Injury after Acceleration Impulse in a Novel Porcine Globe Model

Rahul Mandiga

IMAGING/INSTRUMENTATION POSTERS 401 - 419

401

Comprehensive Evaluation of Retinal Pathologies Without Intravenous Contrast Agent

Adiel Barak

402

Comparison of Parafoveal Capillary Perfusion Measured by Retinal Function Imager with Retinal Thickness by OCT in Diabetic Macula Edema

Ian Chan

Scientific Poster Program – v2 FINAL

403

Free Instructional Website for Contact B-scan Ultrasonography

Yale Fisher

404

Rediscovering Foveal Anatomy in the Era of OCT: a Semi-quantitative Histological Analysis

Duncan Friedman

405

Non-mydriatic Fundus Photography for the Screening of Diabetic Patients for Retinal Pathology

Yoel Greenwald

406

FD-OCT in Early Stages of PVD, Vitreomacular Traction Syndrome and Early Stages of Macular Hole: a Tridimensional Personal Perspective

Juan Manuel Jimenez-Sierra

407

Optical Coherence Tomography [Spectral Domain & Time Domain] Characteristics of Sub-retinal Blebs Seen after Retinal Reattachment Surgery

Vishak John

408

Maculopathy Associated with Tamoxifen Use

Joao Miguel Liporaci

409

Quantitative Measurement of Crystalline Lens Opacification

Cindy Mi

410

Utility of Long Wavelength Optical Coherence Tomography in Choroidal Mass Lesions

SriniVas Sadda

411

Macular Thickness Measurement Using Spectral-domain Optical Coherence Tomography: Improved Reproducibility Using Image Registration

Susanna Park

412

Correlation of Outer Retinal Microstructure & Foveal Thickness with Vision after Vitrectomy for Complications of Proliferative Diabetic Retinopathy

Vinay Shah

413

Retinal Thickness Comparisons in Specific Macular Diseases Utilizing the Cirrus HD-OCT and the OPKO Spectral OCT/SLO

Nathan Steinle

414

Ultra Wide Field Fluorescein Angiography Can Detect Macular Pathology in Central Retinal Vein Occlusion

Irena Tsui

Scientific Poster Program – v2 FINAL

415

The Effect of High Speed Instrumentation and Duty Cycle Settings on the Yield of Diagnostic Vitrectomy for Lymphoma

Kyle Alliman

416

A Free-hand Surface Tracking and Motion Compensation Microsurgical Tool System Based on a Common-path Optical Coherence Tomography Distance Sensor

Peter Gehlbach

417

Transcorneal Electrical Stimulation in Patients with Retinitis Pigmentosa

Virgilio Morales-Canton

418

Relationships of Duty Cycle Versus Cut Rate for Two Commercially Available Vitrectomy Systems

Roger Novack

419

Prevention of Intraoperative Hypotony during Vitreoretinal Surgery: An Instrumental Comparison

Christopher Riemann

INFLAMMATORY AND INFECTIOUS DISEASES POSTERS 501 - 519

501

Long Term Pilot Study of OCT-guided Monthly Ranibizumab for Uveitic Cystoid Macular Edema

Thomas Albin

502

Intravitreal Clindamycin and Dexamethasone for Zone 1 Toxoplasmic Retinochoroiditis at 24 Months

J. Fernando Arevalo

503

A Consecutive Series of 7,540 Intravitreal Injections Without Topical Antibiotic Prophylaxis

Abdhish Bhavsar

504

Ranibizumab Versus PDT for Presumed Ocular Histoplasmosis

Kevin Blinder

505

Acute Retinal Necrosis after Herpes Zoster Vaccine

Leon Charkoudian

506

The Diagnosis and Management of Tuberculous Posterior Uveitis

Caroline Chee

507

Prevention of Recurrent Bevacizumab-induced Intraocular Inflammation

Thomas Finley

Scientific Poster Program – v2 FINAL

508

Nucleoside Analogue Reverse Transcriptase Inhibitor- induced Retinal Degeneration in HIV-positive patient resembles Gyrate Atrophy

Ron Gallemore

509

Atypical Behcet's Disease

Paul Griggs

510

Functional and Anatomic Outcomes of Retinal Detachments Associated with Acute Retinal Necrosis

Yu Hyon Kim

511

Intravitreal Ganciclovir and Dexamethasone as Adjunctive Therapy in the Management of Acute Retinal Necrosis Caused by Varicella Zoster Virus

Kamal Kishore

512

Effect of Povidone-iodine Antisepsis Applied Prior to Lidocaine Gel Anesthesia

Theodore Leng

513

Reversal of Visual Field Defects on Goldmann Perimetry after Fluocinolone Acetonide Implantation for Chronic Uveitis

Christine Nichols Kay

514

Tuberculous Uveitis Masquerading as HLA-B27-related Uveitis: the Utility of Repeat QuantiFERON-TB Gold Testing

Sujata Prabhu

515

Aqueous VEGF Levels in Patients Treated With Bevacizumab for Central Serous Chorioretinopathy

Ravi Radhakrishnan

516

Intravitreal Ketorolac for Chronic Inflammation and Retinal Edema (INCITE) Study: A Phase 1 Safety Study

Rahul Reddy

517

Postoperative Endophthalmitis Caused by Candida Parapsilosis: Clinical Features and Treatment Outcomes

Richard Scartozzi

518

Risk of Endophthalmitis after Intravitreal Injection With and Without Multi-day Course of Post-injection Topical Antibiotics

Kimberly Stepien

519

Endophthalmitis after Intravitreal Avastin and Lucentis Injections in Two Consecutive Years

Tanu Thomas

Scientific Poster Program – v2 FINAL

MACULAR HOLES/MACULAR PUCKER-EPIRETINAL MEMBRANE POSTERS 601 - 611

601

To Peel or Not to Peel Internal Limitant Membrane with Brilliant Blue in Macular Hole Surgery?

Arturo Alezzandrini

602

Fluorinated Silicone Oil as Tamponade for Primary Macular Hole Surgery

Narciso Atienza

603

Microperimetric Outcomes after 25-g Pars Plana Vitrectomy for Stage III/IV Macular Hole:

a Prospective Study

Francesco Boscia

604

Macular Holes Developing in the Early Postoperative Period Following Pneumatic Retinopexy: a Series of 7 Cases

Renaud Duval

605

Evaluation of Retinal Toxicity after Pars Plana Vitrectomy Assisted by a 1mg/ml Concentration of Brilliant Blue G Staining

Valentina Franco-Cardenas

606

Changes in Macular Morphology after Macular Hole Closure Visualized with Spectral Optical Coherence Tomography

Zofia Michalewska

607

Fourier-domain Optical Coherence Tomography of Surgically Closed Idiopathic Macular Hole: Correlation Between Macular Morphology and Visual Acuity

Susanna Park

608

Macular Hole Repair with Triamcinolone Acetonide Assisted ILM Peeling and Non-supine Positioning

Usha Rao

609

Preoperative Visual Acuity as Prognostic Factor in Macular Pucker Surgery

Gerhard Kieselbach

610

Postoperative Course of Eyes with Persistent Macular Edema Following Epiretinal Membrane Surgery

Pauline Merrill

611

Macular Volumetric Changes in Eyes with Idiopathic Epiretinal Membrane: Correlation with Visual Acuity

Suman Pilli

Scientific Poster Program – v2 FINAL

OCULAR ONCOLOGY POSTERS 701 - 705

701

Current Treatment Strategies for Ocular CNS Lymphoma

Jeremiah Brown

702

Combined Simultaneous Transpupillary Thermotherapy-ICG Enhanced Photodynamic Therapy (CSTIP) versus CSTIP+Ranibizumab for Choroidal Melanoma

Veronica Kon-Jara

703

Supraselective Intra-arterial Chemotherapy Utilizing Ophthalmic Artery Delivery for Advanced Retinoblastoma

Timothy Murray

704

Complications Following Plaque Radiotherapy of Small Posterior Uveal Melanoma in 1524 Cases

Emil Anthony Say

705

Metastasis Following Plaque Radiotherapy of Small Posterior Uveal Melanoma in 1524 Cases

Emil Anthony Say

PEDIATRIC RETINA POSTERS 801 - 806

801

Intravitreal Ranibizumab for Choroidal Neovascularization Associated with Best Disease in a Child

Osman Cekic

802

Premature Infant Pain Profile in Neonates Using Topical Anesthesia During Intravitreal Injection of Anti-VEGF Therapy for Retinopathy of Prematurity

R.V. Paul Chan

803

Spontaneous Regression Patterns in Retinopathy of Prematurity

Lisa Olmos

804

Combined Clear-cornea Anterior Approach and Single Port 25-gauge Pars Plana Posterior Capsulotomy with Anterior Vitrectomy for the Pediatric Cataract

Benjamin Roberts

805

Vascular Changes After Intravitreal Ranibizumab in Treatment of Stage III, Threshold and Pre-Threshold ROP Followed by Fluorescein Angiography

Carlos Gustavo Sanchez Bermudez

806

Long Term Visual Outcomes of Lens-sparing Vitrectomy with and Without Scleral Buckling for Stage 4a, 4b and 5 Retinopathy of Prematurity

Ruhi Singh

Scientific Poster Program – v2 FINAL

RETINAL DETACHMENT POSTERS 901 - 912

901

**Combined 5FU, Low Molecular Weight Heparin, Dexamethasone and Oral Colchicine for Established PVR;
A Randomized Clinical Trial**

Hamid Ahmadi

902

**Vitrectomy and Peripheral Retinectomy Without Scleral Buckling for Retinal Detachment Associated with
Severe Anterior Proliferative Vitreoretinopathy**

Andrew Barkmeier

903

**The Risk of Subsequent Retinal Tears in Eyes with Acute Posterior Vitreous Detachment and Vitreous
Hemorrhage**

Steven Cohen

904

Prophylactic Circumferential Laser Photocoagulation during Macular Hole or Epiretinal Membrane Surgery

Yoel Greenwald

905

Complications of Retinal Detachment Surgery Using Scleral Buckles

Jonathan Jonisch

906

**A Comparative Study of Surgical Outcomes of Buckle Vitrectomy and Primary Vitrectomy in Rhegmatogenous
Retinal Detachment**

Ramasamy Kim

907

**Factors Influencing Incidence of Retinal RE Detachment (red) Following Silicon Oil Removal (SOR) in Cases of
Rhegmatogenous Retinal Detachments (RRD)**

Manish Nagpal

908

23 Gauge Versus 20 Gauge Vitrectomy with Silicone Oil Injection for Rhegmatogenous Retinal Detachment

Raja Narayanan

909

Long Term Visual Recovery after Scleral Buckling Surgery for Primary Rhegmatogenous Detachment

Claudine Pang

910

Outcomes of Retinal Detachment Repair in Patients with Prior Posterior Segment Surgery

Daniel Roth

911

EMP2 a Potential Target in Proliferative Vitreoretinopathy (PVR) and Epiretinal Membrane (ERM) Formation.

David Telander

Scientific Poster Program – v2 FINAL

912

Incidence of Unilateral Open Angle Glaucoma Among Patients Who Undergo Vitrectomy vs. Scleral Buckling for Primary Rhegmatogenous Retinal Detachment

Vinod Voleti

RETINAL VASCULAR DISEASE POSTERS 1001 - 1009

1001

Ozurdex™ Therapy of Macular Edema from Retinal Vein Occlusion Guided by High Definition Optical Coherence Tomography

David Dodwell

1002

Extended Efficacy of Ranibizumab in the Management of Retinal Venous Occlusive (RVO) Disease

Jessica Dreyer

1003

Temporal Retinal Thinning on Spectral-domain Optical Coherence Tomography: An Indicator of Peripheral Ischemia in Proliferative Sickle Cell Retinopathy

Ravi Keshavamurthy

1004

Association between Integrity of Foveal Photoreceptor Layer and Visual Outcome in Retinal Vein Occlusion

Hyung Chan Kim

1005

Microperimetry And Spectral Domain-Optical Coherence Tomography In Patients With Retinal Vein Occlusion

Madhavi Kurli

1006

The Age Comparison in Chinese and Non-Chinese patients with Branch Retinal Vein Occlusion

Qingyuan Liang

1007

Annular Vein Narrowing: a Possible Risk Factor in Branch Retinal Vein Occlusion with Different Artery-vein Patterns of Arteriovenous Crossings

Qingyuan Liang

1008

Prospective Randomized Trial Comparing Intravitreal Injections of Triamcinolone Acetonide and Bevacizumab for Macular Edema Secondary to BRVO

Masahito Ohji

1009

Vascular Changes in Patients Treated with Dexamethasone Intravitreal Implant for Macular Edema Due to BRVO or CRVO over 12 Months

Srinivas Sadda

Scientific Poster Program – v2 FINAL

SOCIOECONOMICS AND PRACTICE MANAGEMENT POSTERS 1101 - 1103

1101

Management of Diabetic Retinopathy - Affordable Technological Solutions for Under-served Populations

Ramasamy Kim

1102

Impediments to Wide-scale Adoption and Long-term Implementation of a Diabetic Retinopathy Assessment Program

Ingrid Zimmer-Galler

1103

Iphone for the Retinologist

Ken Lord

SURGICAL TECHNIQUES AND MANEUVERS POSTERS 1201 - 1216

1201

Outcomes of Microincisional Vitrectomy Compared to 20-gauge Vitrectomy for Retained Lens Fragments Following Complicated Cataract Surgery

Marcus Colyer

1202

Outcomes and Complications of Single-step Transconjunctival 23 Gauge Sutureless Vitrectomy and Silicone Oil for Severe Diabetic Tractional Detachment

Magno Ferreira

1203

Novel Technique for Active Removal of Silicone Oil in a Single Step 23-Gauge Sutureless System Outcome and Complications

Magno Ferreira

1204

The Effect of Air Tamponade on Sutureless Small Gauge Vitrectomy Wound Integrity - An in vivo Study of Porcine Eyes

Jorge Fortun

1205

Experience in the Use of Fibrin Glue in Vitreoretinal Surgery

Jose Guerrero-Naranjo

1206

Floaterectomy with the Intrector

Frank Koch

1207

Comparison of 20-, 23- and 25-gauge Air Infusion Forces

Octaviano Magalhaes Jr.

1208

Integrity of Sclerotomies, Intraocular Maneuvers, and Complications in Reoperation Using 23-gauge Pars Plana Vitrectomy Trocar/cannula System

Katrina Mears

Scientific Poster Program – v2 FINAL

1209

Simultaneous Bilateral Vitreoretinal Surgery for Diabetic Retinopathy

Murat Oncel

1210

Comparative (contact Vs Noncontact) Evaluation of Utility of Optiflex in Wide-angle Vitreoretinal Surgery

Ravi Radhakrishnan

1211

Small Gauge Vitrectomy Outcomes and Complications

Gayatri Reilly

1212

Comparative Study Between Standard 25-g Vitrectomy System and New Ultrahigh-speed 25-g System with in the Treatment of Various Vitreoretinal Diseases

Stanislao Rizzo

1213

Use of Triamcinolone Assist Vitrectomy, and Brilliant Blue to Stain the Membrane Limiting Internal for Macular Hole and Epiretinal Membrane Surgery

Luis Suarez Tata

1214

Variation of Retinal Temperature during Pars Plana Vitrectomy

J. Niklas Ulrich

1215

The Risk Factors Causing Postoperative Hypotony and Sclerotomy Leakage in Cases with 23-gauge Transconjunctival Sutureless Vitrectomy

Zeliha Yazar

1216

Permanent Keratoprosthesis Combined with Silicone Oil Tamponade for Visual Rehabilitation of Eyes with Chronic Hypotony and Corneal Opacity

Ingrid Zimmer-Galler
