

● Scientific Poster Guidelines ●

(July 16, 2006)

Poster sessions take place every day from 10:00am to 10:40am during the morning break. Please refer to www.asrs.org for the day of your session. Authors are requested to be at their poster for personal interaction.

Poster authors should note the following guidelines:

A small sign with the number of the poster will be located at each display space, confirming the correct location.

Poster-panels will be available for poster display. It is encouraged the display materials be mounted on heavy weight paper or boards so as not to damage the materials when the posters are being dismantled at the end of the meeting.

The maximum size allowed for each scientific poster is 5' tall by 3' wide (150cm high x 90 cm wide). Posters may be smaller but should not exceed past this size limit. This year, Practice Pearl Posters may be any size, not to exceed the maximum size of 5' tall by 3' wide.

The display areas will be made available for posting on Saturday afternoon, September 9, at 3:00pm. Authors are requested to have their posters in place before the Welcome Reception at 8:00pm.

Posters will be up continuously for display until Wednesday, September 13, at noon.

Poster authors are reminded to disclose any financial interests in companies or products discussed on the poster display.
