

## Poster Session 1: AMD

### Sunday, December 2, 7:30 - 8:00am

- 101** Combination Therapy Using Photodynamic Therapy and Bevacizumab for Choroidal Neovascular Membranes in Age-Related Macular Degeneration  
Sean D. Adrean, MD
- 102** Combination Therapy using Bevacizumab and Thermal Laser for Juxtapapillary Choroidal Neovascular Membranes  
Sean D. Adrean, MD
- 103** Treatment of AMD-associated Subretinal Hemorrhage With Ranibizumab (Lucentis®) and Bevacizumab (Avastin®)  
Saad Ahmad, MD
- 104** Combined Single-Session Photodynamic Therapy and Intravitreal Bevacizumab with vs. without Triamcinolone in Neovascular AMD; A Randomized Clinical Trial  
Hamid Ahmadi, MD
- 105** Bevacizumab in Patients with Choroidal Neovascular Membrane of Senile Type  
Boris Josue Bajaire, MD
- 106** Complement Activation with Bevacizumab (Avastin)  
Gaetano R. Barile, MD
- 107** Triple Therapy for Subfoveal Choroidal Neovascularization Secondary to Age Related Macular Degeneration  
Miguel A. Busquets, MD
- 108** Color Doppler Imaging of Ocular Blood Flow after Combined Photodynamic Therapy with Intravitreal Triamcinolone in Age-Related Macular Degeneration  
Osman Cekic, MD, PhD
- 109** Comparative Analysis Of Optical Coherence Tomography and Retinal Angiography in Eyes Treated with Intravitreal Bevacizumab for Neovascular AMD  
K. V. Chalam, MD, PhD, MBA, FRCS(C)
- 110** A Consecutive Series of Patients Treated with a Combination of Intraocular Avastin and Visudyne for Exudative AMD: One year Follow-up  
Brian P. Connolly, MD
- 111** Intravitreal Avastin in the Management of Peripapillary Subretinal Neovascular Membranes  
Shahram Danesh, MD
- 112** Triple Therapy for Recalcitrant Neovascular AMD Achieves an Average Visual Gain While Markedly Decreasing Maintenance Treatment Burden  
Alan J. Franklin, MD, PhD

- 113** When do I give the next injection of Bevacizumab? A New Approach.  
Bert M. Glaser, MD
- 114** Avastin, Visudyne, Xibrom with and without Amicar Decreases the Treatment Duration without Compromising Visual Acuity in CNVM Related to ARMD  
Calvin A. Grant, MD
- 115** An Analysis of the InSight CNV Registry: A Collaborative Initiative to Advance AMD and CNV Treatment  
Paul B. Griggs, MD
- 116** Microperimetry Findings in Patients Treated with Intravitreal Avastin for Exudative Age-related Macular Degeneration  
Shailesh Gupta, MD
- 117** The Effects of Intravitreal Bevacizumab on the Treatment of Peripapillary Choroidal Neovascularization  
Nitin Gupta, MD, MPH
- 118** Self-Reported Perception of Driving Function Following Ranibizumab Treatment in Patients with Neovascular AMD  
Nancy M. Holekamp, MD
- 119** Photodynamic Therapy Involving the Optic Nerve for Peripapillary Choroidal Neovascularization  
Rachael S. Horn, MD
- 120** Reduced Duration Photodynamic Therapy (PDT) combined with Intravitreal Dexamethasone and Ranibizumab for Exudative Age-Related Macular Degeneration  
Mark S. Hughes, MD
- 121** Solo versus Combination Treatment of Wet AMD  
Nabil M. Jabbour, MD
- 122** Combination Therapy with Verteporfin PDT and Anti-VEGF for Wet Age-Related Macular Degeneration  
Brian C. Joondeph, MD
- 123** More Oxygen in the Vitreous Cavity?! Do We Want it?  
Frank Koch, MD
- 124** PEARL Trial - Investigator Sponsored Trial for Polypoidal Choroidal Vasculopathy (PCV) with Intravitreal Ranibizumab (Lucentis) - Baseline Results  
Gregg T. Kokame, MD
- 125** How many injections do we need to control wet AMD?  
Veronica A. Kon-Jara, MD
- 126** Effects of Intravitreal Ranibizumab on Visual Acuity, Reading Ability and Quality of Life  
Martina T. Kralinger, MD
- 127** Population Pharmacokinetics of Ranibizumab in Patients with Age-Related Macular Degeneration  
Peter Kuebler, PhD
- 128** A Randomized Controlled Double-Masked Trial of Low and Very Low Fluence Verteporfin PDT with Bevacizumab in Exudative Age-Related Macular Degeneration  
Michael J. Potter, MD
- 129** The Incidence of Systemic Adverse Events in Patients Treated with Intravitreal Bevacizumab (Avastin)  
Daniel B. Roth, MD

- 130** OCT Subcomponent Analysis of Short-Term Effects of Intravitreal Anti-VEGF Treatment for Neovascular Age-Related Macular Degeneration  
Srinivas Reddy Satta, MD
- 131** Combination Therapy in the Treatment of Wet ARMD: Ranibizumab Induction Treatment Followed by Pegaptanib Maintenance  
Delia N. Sang, MD
- 132** LUCENTIS (Ranibizumab) in Treatment of Neovascular Age-Related Macular Degeneration (AMD): 2-year Visual Acuity and Safety Results of PIER Study  
Naveed Shams, MD, PhD
- 133** Treating Wet AMD with Verteporfin PDT Combined with Bevacizumab: The Registry of Visudyne® AMD Therapy Database  
Jason S. Slakter, MD
- 134** The Incidence of Wet Age-related Macular Degeneration in Fellow Eyes of Ranibizumab-treated Patients  
Bradley T. Smith, MD
- 135** Combination of High Dose Juxtasclear Triamcinolone (HDJT) with Intraocular Anti-VEGF Therapy in the Treatment of Wet AMD  
Hussein Wafapoor, MD

**Note:** As the Poster Sessions correlate to the Symposia, there is no Poster Session 2 (Symposium 2 is 'Awards & Special Presentations') and there is no Poster Session 3 (Both Symposium 1 & 3 are AMD).

## Poster Session 4: Retinal Vascular Disease/Complications of Anterior Segment Surgery Sunday, December 2, 10:00 - 10:30am

- 401** Trans-Scleral Fixation of Posterior Chamber Intraocular Lens Implants with 25 Gauge Vitrectomy – A New Approach  
Daniel A. Adelberg, MD
- 402** Patterns of Visual Recovery Following Intravitreal Triamcinolone Acetonide  
Ron A. Adelman, MD, MPH
- 403** Bevacizumab in Patients with Macular Edema for Non-Ischemic Central Retinal Vein Occlusion  
Boris Josue Bajaire, MD
- 404** Optical Coherence Tomography Characteristics of Central Serous Chorioretinopathy as Compared to Choroidal Neovascularization  
Minhee Cho, MD
- 405** Chronic or Recurrent Central Serous Chorioretinopathy Treated with Intravitreal Bevacizumab  
David G. Dodwell, MD
- 406** The Efficacy of Intravitreal Bevacizumab (Avastin) in Cases of Non-age related Macular Degeneration Disorders Associated with Choroidal Neovascularization  
Pamela R. Golchet, MD
- 407** Effect of Pre-Vitrectomy Anti-VEGF therapy with Intravitreal Bevacizumab in Vascular Proliferative Retinopathy  
Mallika Goyal, MD
- 408** Xibrom (Bromfenac) Reduces Cystoid Macular Edema Associated with Retinal Vascular Disease  
Jeffrey G. Gross, MD

- 409** The OCT Findings in Retinal Phototoxicity  
Christine Nichols Kay, MD
- 410** Intravitreal Avastin for Recalcitrant Subfoveal Central Serous Retinopathy  
Gregory F. Kozielec, MD
- 411** Retinal Hemorrhage as the Presenting Sign of Alcoholic Cirrhosis  
Robert Kwon, MD
- 412** Optical Coherence Tomography Findings in Retinal Macroaneurysm  
Robert Kwon, MD
- 413** The Variable Efficacy of Intravitreal Bevacizumab (Avastin) and Triamcinolone Acetonide for Cystoid Macular Edema Due to Radiation Retinopathy  
Theresa Ann Larson, MD
- 414** Targeted Retinal Photocoagulation and Anti-VEGF Therapy for the Treatment of Macular Edema from Diabetic Retinopathy or Venous Occlusive Disease  
Eric Sean Lee, MD
- 415** Retinal Detachment Laser Prophylaxis In Eyes Undergoing Vitrectomy for Retained Lens Fragments  
John O. Mason, MD
- 416** Retinal Response to CRVO/BRVO's Treated with Intravitreal Steroid or Avastin  
Raj K. Maturi, MD
- 417** Ophthalmic Arterial Fibrinolysis with Urokinase for Recent Severe Central Retinal Venous Occlusion  
Jose Luis Rosales Meneses, MD, PhD
- 418** Off Label Use of Ranibizumab in the Management of Venous Occlusive Disease and Diabetic Macular Edema  
Mark Michels, MD
- 419** Clinical Presentations and Treatment Outcomes of Idiopathic Polypoidal Choroidal Vasculopathy (IPCV) in South India  
Raja Narayanan, MD
- 420** 1.25 mg vs 2.5 mg of Bevacizumab for Macular Edema Secondary to CRVO: 6 Month Results of the Pan American Collaborative Retina Study Group  
Jose A. Roca, MD
- 421** Complications of Intravitreal Injections in a Community-based Setting  
Ramin Schadlu, MD
- 422** Development of Collateral Vessels under Anti-VEGF Therapy for Branch Retinal Vein Occlusion  
Joerg C. Schmidt, MD, PD
- 423** NSAID as an Alternative Treatment Modality for CME in the Steroid Responsive Patient  
Keith A. Warren, MD
- 424** Comparison of 2 Doses of Intravitreal Bevacizumab for the Treatment of Macular Edema Secondary to BRVO: Pan American Collaborative Retina Study Group  
Lihteh Wu, MD
- 425** Central Retinal Vein Occlusion after Liver Transplantation  
Young Hee Yoon, MD

**Poster Session 5: Diabetic Retinopathy/Inflammatory and Infectious Diseases**  
**Monday, December 3, 10:00 - 10:30am**

- 501** Effect of Intravitreal Bevacizumab (Avastin) on Perifoveal Capillaries in Diabetic Retinopathy  
Zaaira Ahmad, MD
- 502** Use of the Quantiferon-Gold Test to Detect Tuberculosis in Ophthalmic Patients  
Sophie J. Bakri, MD
- 503** Alterations in Macular Functions Following Intravitreal Bevacizumab Injection for Diffuse Diabetic Macular Edema  
Yavuz Bardak, MD
- 504** Combined Phacoemulsification, Vitrectomy and Intravitreal Triamcinalone Acetonide in Complicated Uveitis  
Yavuz Bardak, MD
- 505** Intravitreal Triamcinolone and Retinal Vessel Size Changes in Diabetic Macular Edema  
Osman Cekic, MD, PhD
- 506** Sirolimus (Rapamycin) for the Treatment of Diabetic Macular Edema: Results of a Prospective Phase I Safety Trial  
Pravin U. Dugel, MD
- 507** A Patient with Idiopathic Posterior Scleritis Mimicking Acute Angle Closure Glaucoma  
Theodoros Filippopoulos, MD
- 508** Bevacizumab and Ranibizumab for Choroidal Neovascularization Associated With Multifocal Choroiditis  
Howard F. Fine, MD
- 509** Intravitreal Bevacizumab vs Panretinal Photocoagulation for Proliferative and Severe Non-proliferative Diabetic Retinopathy: a Contralateral Eye Study  
Jose Luis Guerrero-Naranjo, MD
- 510** Whipple Disease Presenting as Posterior Uveitis  
Gaurav Gupta, MD
- 511** Evaluation of the Retina of Non-diabetic Subjects versus Subjects with Diabetes but without Diabetic Retinopathy using Optical Coherence Tomography  
Amir H. Kashani, MD, PhD
- 512** Incidence of Rebleed in Diabetic Vitrectomy After Bevacizumab (Avastin) Pre-Treatment  
Wayne Lo, MD
- 513** Oral and Intravitreal Voriconazole in the Management of Chronic Fungal Endophthalmitis  
Marcio B. Nehemy, MD, PhD
- 514** Long-term Outcomes of Trabeculectomy in the Presence of Intravitreal Fluocinolone Acetonide Implants  
Anita Gunturu Prasad, MD
- 515** Risk Factors for Poor Visual Outcomes in Uveitis  
Sunil K. Rao, MD
- 516** Factors Predictive of a Positive Response to Intravitreal Triamcinolone Acetonide  
Shantan Reddy, MD, MPH

- 517** Outcomes and Timing of Preoperative Intravitreal Bevacizumab in Diabetic Vitrectomy  
Ashish G. Sharma, MD
- 518** Intravitreal Bevacizumab as an Adjuvant to Vitrectomy with Silicone Oil Tamponade in Proliferative Diabetic Retinopathy: Anatomy and Visual results  
Luis M. Suarez Tata, MD
- 519** Outcome of Fluocinolone Acetonide Implant (Retisert™) Reimplantation for Noninfectious Posterior Uveitis  
Mehran Taban, MD
- 520** Topical Nepafenac in the Treatment of Diabetic Macular Edema: an Optical Coherence Tomography Study  
Patrick Dewey Williams, MD
- 521** Optical Coherence Tomography and Fundus Autofluorescence Patterns during the Management of Progressive Outer Retinal Necrosis  
Steven Yeh, MD

## Poster Session 6 Pharmacology/Imaging - Digital - Angiography Tuesday, December 4, 7:30 - 8:00am

- 601** Intravitreal Triamcinolone and Bevacizumab Combination Therapy for Retinal Diseases Recalcitrant to Either Treatment alone  
Noha Stephanie Ekdawi, MD
- 602** Avastazone 2 in 1. Dose It Make a Difference in Macular Edema  
Ehab N. El-Rayes, MD
- 603** Tolerability and Release Kinetics of a Subretinal Triamcinolone Sustained Release System  
Signe R. Erickson, PhD
- 604** Intraocular Pressure Changes Following Intravitreal Injections in the Office  
Judy E. Kim, MD
- 605** OCT/SLO Imaging of Idiopathic Polypoidal Choroidal Vasculopathy  
Madhavi Kurli, MD
- 606** Intraocular inflammation following intravitreal injection of bevacizumab  
Theresa Ann Larson, MD
- 607** Quantification of Pigment Epithelial Detachment Volume Using Spectral-Domain Optical Coherence Tomography  
Brandon Jeremiah Lujan, MD
- 608** Complications after Intravitreal Bevacizumab (Avastin): Analysis of 2844 Injections  
Virgilio Morales-Canton, MD
- 609** Simultaneous Fluorescein Angiographic Imaging of the Posterior Pole and Retinal Periphery in Patients with Retinovascular Disease  
Andrew A. Moshfeghi, MD
- 610** Comparison of a Spectral OCT/SLO with the Stratus OCT for Imaging Retinal Pathologies  
Thomas O. Muldoon, MD
- 611** Early Intraocular Pressure Changes after Intravitreal Injection of Bevacizumab  
Daniel G. Polya, MBBS, MPH

- 612** Functional Spectral OCT/SLO Mapping of Macular Disease  
Richard B. Rosen, MD
- 613** Optical Coherence Tomography findings in Talc Retinopathy  
Vinay A. Shah, MBBS
- 614** Steven-Johnson like reaction after oral Moxifloxacin (Avelox) administration  
Michael A. Singer, MD
- 615** Ultra-Widefield Fundus Imaging in Cytomegalovirus Retinitis  
Vaneer Val Virasch, MD
- 616** Immediate Changes in Intraocular Pressure Following an Intravitreal Injection of 2.5 mg of Bevacizumab (Avastin®)  
Lihteh Wu, MD

## Poster Session 7: Instrumentation and Devices/Hereditary Retinal Disease & Genetics/Ocular Oncology/Socioeconomics

**Tuesday, December 4, 10:00 - 10:30am**

- 701** Evaluation of Touch Sensitive OptiFlex System as Surgical Assistant in Vitreoretinal Surgery  
K. V. Chalam, MD, PhD, MBA, FRCS(C)
- 702** Intraocular Surgery on Virtual Reality Simulator EYESI: A New Approach to Intraocular Surgery Training  
Dagmar Dotrelova, MD, PhD
- 703** Robotic Vitreoretinal Surgery  
Jean Pierre Hubschman, MD
- 704** New 25-gauge Cannula System with Microvitreoretinal Blade Trocar  
Makoto Inoue, MD
- 705** Can we Help Patients Diagnose their CNV Early at Home? A New Home-use Macular Perimeter  
Anat Loewenstein, MD
- 706** Preview Preferential Hyperacuity Perimeter (PHP) to Detect Hydroxychloroquine (HCQ) Retinal Toxicity  
Jeffrey L. Marx, MD
- 707** Personal preferences for gauge selection in vitreoretinal surgery  
Fabio Patelli, MD
- 708** A Novel Vitreous Substitute: An In-Situ Polymerizing Hydrogel and In-Vivo Testing in the Rabbit Model  
Milan Shah, MD, B.Sc
- 709** Spontaneous Separation of Epiretinal Membrane in a Young Subject with Stargardt Macular Dystrophy  
Mehmet Cakir, MD
- 710** Use of Bevacizumab (Avastin) for Choroidal Neovascularization Secondary to Butterfly Pattern Dystrophy  
Marni Grage Feldmann, MD
- 711** Racial Difference in Retinal Sensitivity using Multifocal ERG Response  
S. Natarajan, DO
- 712** Decreased Vision with Leopard Spot Pigmentation of the Retina as a Sign of CNS Large Cell Lymphoma  
Marni Grage Feldmann, MD

- 713** Intravitreal Bevacizumab (Avastin) for Treatment of Choroidal Neovascular Membrane Secondary to Choroidal Osteoma  
Raja Narayanan, MD
- 714** A 26-Year Study of Trends in Marketplace Demand for Ophthalmologists  
Ron A. Adelman, MD, MPH
- 715** Current Vitreo-Retinal Surgical (VRS) Practice Patterns in Fellowship Training Programs in the United States  
Robert A. Mitra, MD
- 716** 2007 Retina Fellows Survey Results  
Jared S. Nielsen, MD
- 717** Resident Vitreo-retinal Surgical (VRS) Practice Patterns in Training Programs in the United States  
Vinay A. Shah, MBBS

## Poster Session 8: Surgical Techniques and Maneuvers/Macular Holes/Macular Puckers Wednesday, December 5, 7:30 - 8:00am

- 801** Optical Coherence Tomography Characteristics of Full-thickness Traumatic Macular Holes  
J. Fernando Arevalo, MD, FACS
- 802** Three-port **WITHDRAWN** Minimal Sutureless Pars Plana Vitrectomy for Various Vitreoretinal Disease  
Francesco Di Sarno, MD
- 803** Intraocular **WITHDRAWN** Cataract and Vitreoretinal Surgery: a Comparison between two Types of IOLs  
Francesco Di Sarno, MD
- 804** Silicone Oil Droplets after Intravitreal Injections  
Noha Stephanie Ekdawi, MD
- 805** Comparison of 23 gauge Trocar/Cannula Wounds  
Philip J. Ferrone, MD
- 806** 23-25 Gauge Mini-invasive Surgery: No Limits  
Cesare Forlini, MD
- 807** Reverse Trans-zonular Flow (Re-Flow Strategy) in the Treatment of Vitreoretinal Diseases  
Cesare Forlini, MD
- 808** Safety of an In-office Procedure for Syringe Preparation and Storage of Bevacizumab (Avastin) Glass Vials for Intravitreal Treatments  
Jans Fromow-Guerra, MD, PhD
- 809** Efficacy of 25-Gauge Pars Plana Vitrectomy Compared to the 20-Gauge System in Treatment of Vitreous Hemorrhage in Phakic Diabetic Patients  
Ali Reza Gohari, MD
- 810** Effect of Vitreous Substitutes on Cataract Progression after Pars Plana Vitrectomy with 25-Gauge versus 20-Gauge System  
Ali Reza Gohari, MD
- 811** Evaluation of Simultaneous Placement of a Foldable IOL (FIOL) in Vitreoretinal Surgery Combined with Phakoemulsification Surgery  
Shailesh Gupta, MD

- 812** Comparison of Leakage Pressures Using A 23 Gauge Vitrectomy Trochar System: Straight vs. Bevel Down vs. Bevel Up  
Luiz F. Hagemann, MD
- 813** Three Years' Follow-up Results of 25-Gauge Transconjunctival Standard Vitrectomy (TSV25TM)  
Atsushi Hayashi, MD
- 814** Vitrectomy following Anti-VEGF Therapy for Epiretinal Membranes Coincident with Age-related Subfoveal Choroidal Neovascularization  
Jeffrey K. Luttrull, MD
- 815** What's The Difference Between Bevel Facing Upward and Downward in 23-Gauge Incision? Anterior Chamber OCT and Intraocular Pressure Analysis  
Octaviano Magalhaes, MD
- 816** A Safe and Effective Local Anesthesia Technique for Small Gauge Vitrectomy Surgery  
Calvin E. Mein, MD
- 817** Avoiding Silicone Oil Leakage in 23-Gauge Transconjunctival Sutureless Vitrectomy  
Leonardo Bruno Oliveira, MD
- 818** Zero Cases of Endophthalmitis in 1000+ Consecutive 25-Gauge Transconjunctival Sutureless Vitrectomies: The Benefit of Vitreous Wick Repositioning  
Scott C. N. Oliver, MD
- 819** Brilliant Blue G-assisted Peeling of Internal Limiting Membrane and Epiretinal Membrane  
Murat Oncel, MD
- 820** Striae of Macular Photoreceptor Layer Associated with Epiretinal Membrane Imaged using Adaptive Optics  
Susanna S. Park, MD, PhD
- 821** 25-Gauge Transconjunctival Drainage of Serous Choroidal Detachment  
Flavio A Rezende, MD, PhD
- 822** ILM Peeling during Vitrectomy Surgery for Premacular Fibroplasia - Long-Term Follow-Up Results  
Ramin Schadlu, MD
- 823** Giant Macular Holes in Alport Syndrome  
Sandeep N. Shah, MD
- 824** IOP Changes Associated with Retina Surgery in the Phakic Patient  
Milan Shah, MD, B.Sc
- 825** Accuracy and Precision of Intraocular Injections using High Precision vs. Tuberculin Syringes  
Sandeep N. Shah, MD
- 826** Increased Postoperative Patient Comfort and Shorter Hospital Stay in 23G Transconjunctival Surgery compared to 20G Surgery  
Peter Stalmans, MD, PhD
- 827** Visual Outcomes with 23-Gauge Transconjunctival Sutureless Vitrectomy  
Asheesh Tewari, MD
- 828** Lower Cataract Progression after 25-Gauge Vitrectomy: 2 Years Results  
Peter Ho Win, MD

**Poster Session 9 Retinal Detachment/Pediatric Retina/Trauma**  
**Wednesday, December 5, 7:30 - 8:00am**

- 901** ROP Experience at Bascom Palmer Eye Institute and Jackson Memorial Hospital over a 49-Month Period  
Audina M. Berrocal, MD, FACS
- 902** High-Density Silicone Oils in Complicated Rhegmatogenous Retinal Detachment  
Jose Luis Díaz-Rubio, MD
- 903** Double Tamponade (F6H8/silicone oil) in the Treatment of Retinal Detachment with Central Hole in High Myopia  
Paolo Rossini, MD
- 904** Proliferative Vitreoretinopathy Inhibition Utilizing a Nanostructured Vitreous Substitute  
William J. Foster, MD, PhD, FRCS(C)
- 905** Effect of Intravitreal Triamcinolone Acetonide in Arresting Proliferative Vitreoretinopathy in Silicon Oil Filled Eyes  
Mallika Goyal, MD
- 906** Retinal Detachment in an Infant Secondary to a Giant Dentate Process with Vitreous Cyst  
Gaurav Gupta, MD
- 907** The Slower the Better – Bubble Formation in a Model of Pneumatic Retinopexy  
Anurag Gupta, MD
- 908** Orbital Emphysema Secondary to Retinal Detachment Surgery  
Veronica A. Kon-Jara, MD
- 909** Pars Plana Vitrectomy Alone for Finding Unseen Preoperative Retinal Breaks in Primary Rhegmatogenous Retinal Detachment  
Vicente Martinez-Castillo, MD
- 910** Scleral Buckling vs. Primary PPV for RRD  
Armando G. Sandoval, MD
- 911** 25-Gauge Transconjunctival Sutureless Vitrectomy for Primary Rhegmatogenous Retinal Detachment  
Manfred A. von Fricken, MD
- 912** Optical Coherence Tomography Evaluation of Detached Macula Arising from Rhegmatogenous Retinal Detachment and Central Serous Chorioretinopathy  
Young Hee Yoon, MD
- 913** Review of the Incidence and Visual Outcomes of Traumatic Macular Hole from Closed Globe Combat Ocular Trauma (COT) during Operation Iraqi Freedom  
Marcus H. Colyer, MD
- 914** Clinical Characteristics, Interventions, and Prognostic Factors for Visual Outcome and Globe Survival in Metallic Intraocular Foreign Body Injuries  
Justis P. Ehlers, MD
- 915** Management of Terson's Syndrome with 25-Gauge Vitrectomy  
Brian C. Joondeph, MD
- 916** Optical Coherence Tomography Findings in Whiplash Maculopathy  
Andrew Lam, MD

- 917** Predictive Value of Ocular Trauma Score (OTS) in Terror-related Open-Globe Injuries  
Gungor Sobaci, MD
- 918** Pars Plana Vitrectomy and Scleral Fixation of Iris Reconstruction Implant in Traumatic Aniridia and Aphakia  
Sahin Ufuk Tig, MD
- 919** Choroidectomy for Severe Intraocular Foreign Body (IOFB) Injuries during Operation Iraqi Freedom  
Eric D. Weichel, MD
