As the global leader in eye care, Alcon develops and manufactures innovative medicines and devices to serve in the full life cycle of eye care needs. We offer the broadest spectrum of surgical, pharmaceutical and vision care products to treat many eye diseases and conditions, including cataracts, glaucoma, age-related macular degeneration, retinal diseases, dry eye, eye infection and eye inflammation, ocular allergies, refractive errors, and other ocular health issues.

Alimera Sciences, Inc. is headquartered in Alpharetta, Georgia. A pharmaceutical company that specializes in the research, development and commercialization of prescription ophthalmic pharmaceuticals. On September 26, 2014 the FDA approved ILUVIEN for the treatment of Diabetic Macular Edema in patients who have been previously treated with a course of corticosteroids and did not have a clinically significant rise in intraocular pressure.

Allergan Retina, a specialty unit of Allergan, extends our eye care expertise to the back of the eye. We are committed to discovering and developing innovative therapies for patients who suffer from diseases affecting the back segment of the eye, including diabetic macular edema (DME), uveitis, and BRVO/CRVO.
Avella is a national specialty & compounding pharmacy with unique expertise in ophthalmology treatments, including customized medications, hard-to-find products, and even discontinued items. Ask about our new FDA approved outsourcing facility!
