The American Society of Retina Specialists (ASRS), in appreciation, recognizes members who are active contributors to the *Journal of VitreoRetinal Diseases (JVRD)* through the *JVRD* Distinguished Contributor Awards Program.

Participants accumulate points for their submissions and/or peer reviews toward recognition as Distinguished Contributors (at least 5 points earned) or Master Contributors (15 or more points earned); points are cumulative since launch. Recipients are recognized annually at the ASRS Annual Meeting and on the ASRS website at www.asrs.org/JVRD-Contributor-Award. The ASRS thanks the following members who have achieved a new or next-level Contributor Award since April 2024.
