

Alexander Melamud, MD, MA

A graduate of Columbia University (Bachelor of Arts degree), Alexander Melamud, MD, MA, went on to earn both his Master of Arts and Doctor of Medicine from Case Western Reserve University. His post-graduate education included an internship in Internal Medicine at the New York University Hospital and a residency in Ophthalmology at the Cleveland Clinic's Cole Eye Institute, where he was elected to serve as the chief resident. He then completed a surgical fellowship in Retinal Disease at the Duke University Medical Center.

As a complement to his clinical care, Dr. Melamud is actively involved with research at both the national and regional level, acting as a principal and co-investigator in a number of clinical trials. He is the co-director of the fellowship program administered by The Retina Group of Washington in conjunction with Georgetown University and the Washington Hospital Center and an active member of the Fellowship Directors' Committee of the ASRS.
