

Ashkan Abbey, MD

Dr. Ashkan Abbey graduated magna cum laude from Harvard University and received his medical degree, with honors, at Weill Cornell Medical College in New York. He completed his transitional residency at Scripps Mercy Hospital in San Diego, California, and his ophthalmology residency at the top-rated eye hospital in the country, Bascom Palmer Eye Institute in Miami, Florida. He then completed his fellowship in vitreoretinal surgery at William Beaumont Hospital in Royal Oak, Michigan, recognized as one of the premier retina training programs in the country. Dr. Abbey joined Texas Retina Associates in 2015. He became Director of Clinical Research for Texas Retina Associates - Dallas in 2020.

Dr. Abbey specializes in the management of all diseases of the retina and vitreous. His clinical expertise includes the diagnosis and treatment of macular degeneration, retinal detachment, diabetic retinopathy, macular holes, retinopathy of prematurity, and other pediatric retinal diseases. He has been active in research during his medical career and has published numerous peer-reviewed scientific papers, book chapters, and national meeting abstracts on various ophthalmologic topics.

Dr. Abbey is board-certified in ophthalmology. He is an active fellow of the American Academy of Ophthalmology and of the American Society of Retina Specialists, and he is an active member of the Association for Research in Vision and Ophthalmology and the Alpha Omega Alpha Honor Medical Society. He serves on the Board of Directors of the Outpatient Ophthalmic Surgery Society and on the Medical Executive Committee of the Ophthalmology Surgery Center of Dallas. He also serves as a manuscript referee for the standard scientific journal of his field, RETINA: the Journal of Retina and Vitreous Diseases, and OSLI Retina.
