### **Brevium**

<https://brevium.com/>

[Info@brevium.com](mailto:Info@brevium.com)

801-854-5420

Brevium is the pioneer of patient reactivation, delivering a patented platform that discovers untapped revenue in your patient data and acts on it. On average, 25% of a practice's patient database is overdue with no appointment or outreach in place. Powered by 20+ years of clinical logic, Brevium integrates with your practice management system to analyze patient data, determine who needs care now, and trigger the right outreach—texts, emails, calls, and postcards. Daily reporting tracks ROI, outreach outcomes, appointments generated, and remaining lost-patient opportunity, giving practices a clear view of performance while improving continuity of care.

Contact: Kyle McGill - Sr. Director of Buy and Bill Solutions - [kyle.mcgill@elevateht.com](mailto:kyle.mcgill@elevateht.com)

Elevate Health Technologies is a medical software company specializing in inventory management, procurement, and dispensing solutions. Our inventory management system, Pulse, has been used by high volume retina practices for almost a decade. Each module, report, and tool is uniquely designed for Retina Specialists to ensure that every intravitreal injectable is accounted for from the time it is ordered until it is paid for in full by insurance. By utilizing Pulse Inventory, as opposed to software provided by your distributor, your practice will have more freedom to negotiate your purchasing contracts without the worry or going through another software implementation or getting less than capable functionality. Give your practice the detailed tools it needs to track intravitreal injectables/implants and the freedom to work with any vendor. Stop by the booth today to learn more!
