Dear Colleagues:

We now use anti-VEGF agents as standard therapy in our patients with neovascular age-related macular degeneration. The experience we gain as we endeavor to optimize outcomes for our new as well as long-term patients inevitably leads to new questions. Emerging research continues to offer new insights and approaches for us to consider.

This CME program series is designed specifically for retina specialists, with the goal of answering today's practical questions. Please join us and our nationally recognized faculty in participating in these half-day programs titled "Clinical Consultations: Answering Today's Top Questions on Managing Patients With Wet AMD."

Current information will be presented in a case-based, interactive format. At each Saturday session, we hope to answer your questions with pearls you can incorporate into practice on Monday. To that end, we encourage you, when registering, to submit one question that keeps you up at night.

We look forward to seeing you.

Sincerely,
Pravin Dugel, MD, and Carl Regillo, MD
Program Co-chairs

This continuing medical education activity is supported through an unrestricted educational grant from Genentech, Inc

Genentech

LEARNING OBJECTIVES

Upon completion of this activity, participants will be better able to:

- Evaluate the current evidence on efficacy, safety, and dosing regimens of the anti-VEGF agents used to treat wet AMD
- Select a treatment strategy for a variety of patients with wet AMD that maintains visual acuity and long-term safety, and meets patient preferences

TARGET AUDIENCE

This activity intends to educate retina specialists, retina specialist fellows, and comprehensive ophthalmologists caring for patients with wet AMD.

ACCREDITATION STATEMENT

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of The New York Eye and Ear Infirmary and MedEdicus LLC. The New York Eye and Ear Infirmary is accredited by the ACCME to provide continuing medical education for physicians.

AMA CREDIT DESIGNATION STATEMENT

The New York Eye and Ear Infirmary designates this live activity for a maximum of 3.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE POLICY STATEMENT

It is the policy of The New York Eye and Ear Infirmary that the faculty and planners disclose any real or apparent conflicts of interest relating to the topics of this educational activity, and also disclose discussions of unlabeled/unapproved uses of drugs or devices during their presentation(s). The New York Eye and Ear Infirmary has established policies in place that will identify and resolve all conflicts of interest prior to this educational activity. Full disclosure of faculty/planners and their commercial relationships, if any, will be made at the program.

AMERICANS WITH DISABILITIES ACT &

MedEdicus fully complies with the legal requirements of the ADA and the rules and regulations thereof. Please contact info@mededicus.com with any special needs (eg, physical, dietary) prior to the program.

San Francisco, California

AGENDA

- 8:00 AM–8:30 AM **Registration and Breakfast**
8:30 AM–11:30 AM **Case Discussions that help answer these questions:**

- How often can you re-treat with anti-VEGF?
- How many recurrences of fluid can you accept?
- How do the anti-VEGF agents really compare?
- What is today's best regimen to treat and monitor a new patient?
- Can you give anti-VEGF injections every 2 weeks?
- Can you ever stop giving anti-VEGF agents?
- What is the role of fluorescein angiography in today's management of AMD? ...and more

Submit your question to be discussed when you register!
