

ASRS 25th Business of Retina Meeting Exhibitor List

March 8-10, 2024

Gila River Resort & Casino Wild Horse Pass

AllyGPO | BioCareSD

www.NewRetinaPartner.com

info@allygpo.com

We're a retina-only group purchasing organization and a specialty-only distributor partnership created to give you more options and greater value. AllyRetina is a transparent and technology-forward GPO that exclusively supports retina practices in optimizing their drug inventory, contract performance, and rebates. BioCareSD, with over 40+ years of delivering high-touch, personalized service to practices nationwide, helps retina practices gain real cost advantage with competitive pricing. Together, we work to maximize your practice's financial health, increase your productivity, and maintain the vitality of community-based retina care. Learn more about how our expertise advances your goals at www.NewRetinaPartner.com.

Alimera

<http://www.alimerasciences.com/>

T +1 (678) 990 5740

Alimera is a global pharmaceutical company whose mission is to be invaluable to patients, physicians, and partners concerned with retinal health and maintaining better vision longer. Their products, ILUVIEN® (fluocinolone acetonide intravitreal implant) 0.19 mg and YUTIQ® (fluocinolone acetonide intravitreal implant) 0.18 mg, can reduce the recurrence of disease, enabling patients to maintain vision longer with fewer injections. In the U.S., ILUVIEN is available for diabetic macular edema (DME) patients and YUTIQ for patients with chronic non-infectious uveitis affecting the posterior segment. ILUVIEN is also available in several European countries and the Middle East for both DME and recurrent non-infectious uveitis affecting the posterior segment.

Amgen

www.amgen.com

One Amgen Center Drive

Thousand Oaks, CA 91320-1799

+1 805-447-1000

PX Technology

<https://www.pxtechnology.com/>

Contact Email: info@pxtechnology.com

Phone: 888-270-4882

PX Technology specializes in developing innovative digital solutions aimed at enhancing healthcare workflows, focusing on patient enrollment, consent forms, and prior authorizations. Their suite of products, including PX Connect, PX ePA, and PX Consent, leverages technology to streamline and digitize previously manual and paper-heavy tasks. This modern approach not only speeds up clinic workflow but also enhances accuracy and the patient care quality.

The company's solutions address the critical needs within the healthcare industry for efficiency, accuracy, and enhanced patient experiences. By automating and simplifying processes that are traditionally time-consuming and prone to errors, PX Technology aims to improve operational efficiencies for healthcare providers and ensure that patients receive timely and effective care.

PX Technology positions itself as a partner to healthcare providers by offering scalable, user-friendly platforms that integrate seamlessly with existing healthcare systems. Their products are designed to reduce the administrative burden on healthcare staff, allowing them to focus more on patient care rather than paperwork. With a focus on innovation, compliance, and improving patient outcomes, PX Technology is committed to transforming healthcare administration through technology.

Regeneron Pharmaceuticals, Inc.

<https://www.regeneron.com/>

Phone: 914-847-7000

777 Old Saw Mill River Road

Tarrytown, NY 10591

Regeneron is a leading biotechnology company that invents, develops and commercializes life-transforming medicines for people with serious diseases. Founded and led for 35 years by physician-scientists, our unique ability to repeatedly and consistently translate science into medicine has led to numerous FDA-approved treatments and product candidates in development, almost all of which were homegrown in our laboratories.

Regeneron is accelerating and improving the traditional drug development process through our proprietary *VelociSuite*® technologies, such as *VelocImmune*®, which uses unique genetically humanized mice to produce optimized fully human antibodies and bispecific antibodies, and through ambitious research initiatives such as the Regeneron Genetics Center, which is conducting one of the largest genetics sequencing efforts in the world.

For more information, please visit www.Regeneron.com or follow Regeneron on [LinkedIn](#).

SamaCare

www.SamaCare.com

Contact: Chris Nicholas - 713-598-2654

Email: chris.nicholas@samacare.com
