Sunil Gupta, MD

Sunil Gupta, MD, is a nationally recognized vitreoretinal surgeon and highly experienced clinical trial investigator with more than three decades of leadership in multicenter ophthalmic research. He has served as Principal Investigator or Sub-Investigator in hundreds of Phase 1–4 clinical trials across neovascular and dry AMD, diabetic retinopathy and DME, retinal vein occlusion, geographic atrophy, inherited retinal disease, uveitis, and emerging gene, cell, optogenetic, and complement-based therapies. Dr. Gupta has contributed to the clinical development of numerous first-in-class and landmark retinal therapies, with extensive experience in early-phase dose escalation, global registrational trials, long-term extension studies, and real-world Phase 4 programs. A frequent author and presenter at ASRS, ARVO, AAO, EURETINA, and Retina Society, he is the Founder and Managing Partner of Retina Specialty Institute and serves as Co-Founder and CMO of USRetina and IRIS: Intelligent Retinal Imaging Systems.
