

ASRS

American Society of
Retina Specialists

J. Michael Jumper, MD

Dr. Jumper is a graduate of the University of Texas Southwestern Medical School in Dallas, Texas. He completed his ophthalmology residency at the University of California, San Francisco and a vitreoretinal fellowship at Duke University. He was retina service chief at Wilford Hall Medical Center in San Antonio, Texas during his service in the United States Air Force. Dr. Jumper is currently the ophthalmology department vice-chairman, retina service chief and vitreoretinal surgery fellowship director at California Pacific Medical Center. He is a member of West Coast Retina Medical Group in San Francisco, California.

His academic appointments include Assistant Clinical Professor at the University of California, San Francisco and Assistant Professor of Surgery at the Uniformed Services University of the Health Sciences in Bethesda, Maryland. Dr. Jumper is a member of the Retina Society, the Association of Pediatric Retinal Surgeons and the American Society of Retina Specialists (ASRS). He served as editor of the annual Preferences and Trends Survey for the ASRS from 2010-2012 and as the editor-in-chief of the Retina Times, journal of the ASRS from 2012-2016. He now serves on the editorial board of the Journal of Vitreoretinal Disease. He is currently a member of the ASRS Executive Committee and the Program Chair for the 2023 ASRS Annual Meeting in Seattle, WA.

Dr. Jumper has published over 75 journal articles and chapters in the peer-reviewed ophthalmic literature. He has given over 100 presentations and conducted over 25 courses. Dr. Jumper is a scientific reviewer for the American Journal of Ophthalmology, British Journal of Ophthalmology, Ophthalmology, Retina, and Survey of Ophthalmology. He has received the Honor Award from the American Academy of Ophthalmology and the senior Honor Award from the American Society of Retina Specialists. He has twice received the outstanding faculty award in ophthalmology residency training at both the California Pacific Medical Center as well as the University of California, San Francisco.
