# GUIDELINES FOR PAPER ON-DEMAND PRESENTERS

---

*These guidelines are provided for preparation and presentation of Papers on Demand at the 39th Annual ASRS Meeting.*

## GENERAL COMMENTS AND TIMING

Thank you in advance for presenting your work at the **39th Annual ASRS Meeting**. Presenters will be given the opportunity to provide an 8-minute PowerPoint or Keynote presentation with voice annotation (MP4 format required) that will be offered to attendees, and later the entire ASRS, via various communication channels as an "on-demand" feature. The presentation will be continually available to be viewed and cited as a vitally important part of the educational effort of the Annual Meeting.

## AUDIO-VISUAL GUIDELINES AND DEADLINES

Specifications for preparing your presentation:

- Click [here](#) for software tools and tips for preparing your presentation.
- Your completed presentation must be received in **MP4 format** by **August 23**. All lead authors received upload instructions directly from Ovation.
- Presentations that are not formatted as MP4s will not be accepted.
- **Maximum length of presentation is 8 minutes.**
- Please build your presentation using the 16:9 (widescreen) format aspect ratio.

ASRS expects all speakers to comply with ASRS' Content Validity Statements. ASRS expects that our content will always be:

- Free from commercial bias, marketing, and sales of any product or service
- Evidence based
- Balanced, with information on all therapeutic and management options

Please review [ASRS' Content Validity Policies](#) and [ASRS's Speaker Guidelines & Attestation](#) prior to developing your presentation.

Please ensure that the following requirements are met:

1. In compliance with ASRS and ACCME requirements, it is mandatory that you provide a final copy of your presentation by August 23 for purposes of a peer review. Lead authors should upload to Ovation directly using the information provided via email. If ASRS' review finds that changes are needed, you are required to make the modifications in order to ensure you are allowed to participate. ASRS' Review Criteria are outlined in the [Slide Review Checklist](#).
2. ASRS will review your presentation and/or content prior to your participation to ensure the content is scientifically valid and free of any commercial bias.
  - a. If you are planning to discuss specific health care products or services, you should use generic or compound names (to the greatest extent possible). Trade names can be used when it is in the best interest of the learners and patients. In such cases, using trade names from several companies, when possible, is required.
  - b. For presentations that involve only one drug or device, the pros and cons; the advantages or disadvantages; indications or contraindications should be discussed to ensure fair balance.
  - c. Accredited education must be free of marketing or sales of products or services. Faculty must not actively promote or sell products or services that serve their professional or financial interests during accredited education.
  - d. Do not include photos of drugs or devices that contain brand names or industry names.
  - e. Remove all product logos.
3. You must include a disclosure slide at the beginning of your presentation *prior* to your content slides **with adequate dwell time** on the slide, commensurate with the length of the text shown and with simultaneous verbal presentation of the content. Speakers with no relevant financial relationships are required to state such as part of their presentation. Speakers failing to follow this policy will not be allowed to participate. Please see Sample Financial Disclosure Slide below for required information.

## Financial Disclosures

- Name of Ineligible Company (or No Relevant Financial Relationships with Ineligible Companies)
  - NOTE: Identify ineligible companies by their name only. Disclosure to learners must not include ineligible companies' corporate or product logos, trade names, or product group messages.
- The nature of the financial relationship. Examples of financial relationships include employee, researcher, consultant, advisor, speaker, independent contractor (including contracted research), royalties or patent beneficiary, executive role, and ownership interest. Individual stocks and stock options should be disclosed; diversified mutual funds do not need to be disclosed. Research funding from ineligible companies should be disclosed by the principal or named investigator even if that individual's institution receives the research grant and manages the funds.

4. If you will be discussing a product that is off-label, you must disclose that the use or indication of the product under discussion is not currently FDA-approved for such use or advertising. Disclosure of off-label uses of drugs or devices must be made in an **opening** PowerPoint/ Keynote slide *prior* to your content slides.
5. You must obtain all permissions, as needed, for content that you did not personally develop.
  - a. Supply references for any data slides, informational slides that contain percentages or factual data, complex mechanisms of action for medications, chemical structure of drugs, pathophysiology, or standard of care recommendations. References such as “data on file”, or another colleague as the sole reference on the slide should be avoided.
  - b. References are not needed for personal opinions or research, unless these opinions have been published.
6. Presenters have a fundamental responsibility to safeguard the rights and welfare of the people participating in their research activities. Studies involving human subjects require special protections, depending on the nature of the study, such as informed consent, IRB approval, and protection of confidentiality, unless waived. Upon abstract submission, presenters were required to disclose whether or not data from human research is presented, including IRB status. This information will be published in the abstracts provided to all attendees.
7. Please refrain from adding promotional slides regarding other meeting dates, locations, etc. about non-ASRS meetings/events as these are prohibited.
8. You may acknowledge your co-authors, including where they practice and how to contact them in case of further questions *about the presentation*. However, lead authors are prohibited from advertising specific practices (e.g. office locations, practice members and their subspecialty interests, scope of services, contact information for marketing purposes, etc.).
9. While the use of an ASRS slide template is not required, we prohibit the use of institutional slide templates with logos on every slide. It is acceptable to place an institutional or clinic logo on the first slide only.

**IMPORTANT:**

Acceptance of an invitation constitutes a commitment by the first author to register for and attend the meeting. This rule applies to all presentation types, including papers on demand (PODs). If first authors do not attend the meeting, papers on demand will not be posted in ASRS’s Annual Meeting archives that are available to all members. NOTE: we will make an exception to this rule for international authors who cannot attend the meeting in person due to COVID hardships. Please notify [stacy.kiff@asrs.org](mailto:stacy.kiff@asrs.org).
