
GUIDELINES FOR POSTER PRESENTERS

Presenters should note the following guidelines for electronic posters:

1. E-poster presentations are Power Point presentations with a maximum of 6 slides (landscape orientation). Please build your presentation using the 16:9 (widescreen) format aspect ratio.
2. The first slide of the presentation should include the entire e-poster. Poster authors are reminded to disclose any **Financial Interest** and **Human Research** on their poster.
3. Subsequent slides should contain the following components:
 - 1 slide for materials/methods
 - 1-3 slide(s) for results
 - 1 slide for conclusions
4. E-posters must be received by **June 15**. Upload instructions will be forthcoming from our production company, Ovation.
5. Examples of last year's e-posters can be viewed at <https://www.asrs.org/annual-meeting/archives/e-posters/2019> (member log on required). Non-members can contact stacy.kiff@asrs.org for examples, if needed.
