

| Last Name            | First Name       | Session Title   | Poster number |
|----------------------|------------------|---|---------------|
| Abdalla Elsayed      | Maram            | Changes in the Autofluorescent Ring in Inherited Retinal Degenerations and Their Reversal Following Retinal Gene Therapy  | 239           |
| Abu Serhan           | Hashem           | Macular Perfusion Analysis Using Optical Coherence Tomography Angiography Post Rhegmatogenous Retinal Detachment Repair: A Systematic Review and Meta-Analysis    | 343           |
| Ahmed                | Harris           | Magnesium and Risk of Age-Related Macular Degeneration  | 119           |
| Ahmed                | Abdulla          | The Impact of Intravitreal Anti-VEGF Therapy on Kidney Function: A Matched Cohort Analysis  | 415           |
| Ahmed                | Osama            | Referral Patterns and Ocular Manifestations of Cutis Marmorata Telangiectatica Congenita  | 604           |
| Akai                 | Ryota            | Is Axial Length Correction Necessary for Macular Hole Surgery?  | 314           |
| Al Hussein Al Awamlh | Sara             | Correlation of Inflammatory Cytokines in Aqueous Humor and Serum of Patients With Different Stages of Diabetic Retinopathy  | 205           |
| Allan                | Kevin            | Prevalence, Trends, and Disparities of Glucagon-Like Peptide-1 Receptor Agonist Prescription in Ophthalmology Patients  | 208           |
| Alsoudi              | Amer             | Association Between Obstructive Sleep Apnea and Age-Related Macular Degeneration Development and Progression  | 107           |
| Altamirano           | Francisco        | Structure-Function Correlation With OCT-Derived Macular Thickness and Macular Microperimetry in Children With Sickle Cell Disease                                 | 433           |
| Ambati               | Naveen           | Continuous Positive Airway Pressure (CPAP) Improves Control of Macular Edema in Obstructive Sleep Apnea (OSA)-Associated Retinopathy                              | 412           |
| Ando                 | Takumi           | Risk Factors and Predictive Cutoff Values for New-Onset Microscotoma Following Vitrectomy for Epiretinal Membrane   | 320           |
| Andoh                | Joana            | Optical Coherence Tomography Findings in Eyes Following Treatment for Fungal Endophthalmitis  | 256           |
| Applebaum            | Serina           | Longer Lapses in Care Linked to Higher Rates of New Ophthalmic Complications for Patients With Proliferative Diabetic Retinopathy in the United States            | 214           |
| Archambault          | Simon            | Intraoperative, Short-Term, and Long-Term Outcomes of 3 Common Secondary Intraocular Lens Techniques  | 341           |
| Arhontoulis          | Dimitrios        | Complication Profile of Secondary Dual Eyelet IOL Implantation Compared to Other IOL Platforms: A 10-Year Review  | 338           |
| Asad                 | Arsalaan         | Impact of Obstructive Sleep Apnea on the Development and Progression of Diabetic Macular Edema: A Retrospective Multicenter US Cohort Study                       | 216           |
| Awh                  | Caroline         | Plasma Metabolomic Profiles Associated With Five-Year Progression of Age-Related Macular Degeneration   | 118           |
| Azargui              | Soufiane         | Outcomes of Acute Vitreous Hemorrhage Secondary to Proliferative Diabetic Retinopathy Managed Initially With Panretinal Photocoagulation vs Early Vitrectomy      | 219           |
| Aziz                 | Aamir            | Real-World Efficacy and Safety of Faricimab in Neovascular Age-Related Macular Degeneration: First-Time 2-Year Results of the TAHOE Study                         | 211           |
| Azzouz               | Lyna             | Improving Operating Room Access and Utilization at an Academic Ophthalmology Department   | 501           |
| B                    | Poornachandra    | Multicolor Imaging in Evaluation and Monitoring of Inherited Retinal Dystrophies  | 237           |
| Bagheri              | Saghar           | Evaluation of Systemic Diagnostics, Management Strategies, and Outcomes in Admitted vs Non-admitted Patients With Central Retinal Artery Occlusion                | 414           |
| Baker                | Evan             | Understanding Visual Disparities: Evaluating the Impact of Various Social Determinants of Health on Presenting Visual Acuity in Rhegmatogenous Retinal Detachment | 513           |
| Banaee               | Touka            | The Trend in Ischemic Workup of Acute Retinal Artery Occlusion in the Emergency Department  | 426           |
| Banker               | Alay             | A Case of Bilateral Recalcitrant Intermediate Uveitis in a Young Patient: Primary Vitreoretinal Lymphoma  | 250           |
| Barbosa              | Gabriel Castilho | Reassessing the Dimensions of Macular Holes: Should We Rethink Measurement Standardization?   | 317           |
| Bates                | Brandon          | Comparing the Patient Experience in 5% Povidone-Iodine vs 0.05% Aqueous Chlorhexidine as Antiseptic Prior to Intravitreal Injection                               | 248           |
