

Program Content and Disclosure

The primary purpose of this activity is educational. The views expressed and the techniques presented by the speakers at the ASRS educational meetings are not necessarily shared or endorsed by the Society. The Society requires speakers to disclose all relevant personal/professional relationships and any unapproved or "off-label" uses of medical devices or pharmaceutical agents that they discuss, describe, or demonstrate during their presentations. Attendees must use their own judgment about the information discussed. Hand-out materials are prepared and submitted for distribution by the presenters, who are solely responsible for their content. There may be, on occasion, changes in faculty and program content. In order to ensure balance, independence, objectivity, and scientific rigor in all its educational activities, and in accordance with ACCME Standards, the ASRS requires all individuals in positions to influence and/or control the content of ASRS CME activities to disclose whether they do or do not have any relevant financial relationships with proprietary entities producing health care goods or services that are discussed in the CME activities, with the exemption of non-profit or government organizations and non-health care related companies. These relationships are reviewed and any identified conflicts of interest are resolved prior to the activity.

Faculty are asked to use generic names in any discussion of therapeutic options, to base patient care recommendations on scientific evidence, and to base information regarding commercial products/services on scientific methods generally accepted by the medical community. All ASRS CME activities are evaluated by participants for the presence of any commercial bias and this input is utilized for subsequent CME planning decisions.

The individual below responded that they have no relevant financial relationships with commercial interests to disclose:

The individuals below have disclosed the following financial relationships with commercial interests:

Faculty/Committee Members: Commercial Interest/Type of Relationship/Compensation
