

Retina PractiCare 2.0

Coming in Summer 2019

**A new tool
for a new age
in medicine!**

Retina PractiCare 2.0 gives you the power to analyze your practice's financial health compared to peers.

- ✓ **Expertly designed** with the help of Navigant, consultants with extensive healthcare expertise.
- ✓ **Innovative redesign** captures practice data on a web-based platform:
 - Patient demographics
 - Revenue and expenses
 - Payer mix
 - Pharmaceutical rebates
 - Professional services A/R with aging
 - Pharmaceutical A/R with aging
 - Total expenses per patient visit
 - Support staff expenses per practice visit
 - Pharmaceutical float
 - Surgical case load
 - Patient visits/doctor
- ✓ **Exclusive** for ASRS members. Participants receive comprehensive benchmarking reports comparing practices locally and nationally with no chance of individual practices being identified based on size or location.
- ✓ **Promotes excellence** helping practices identify areas of strength and weakness.
- ✓ **Confidential!** Your data confidentiality is paramount! Participants will be assigned random codes and data is secured using 2048 RSA encryption. No data will be sold.
