

Thomas Stone, MD, FASRS

Thomas Stone, MD, FASRS, completed his ophthalmology residency at Duke University Eye Center and completed his vitreoretinal fellowship at Emory University Eye Center. His clinical interests include all aspects of macular and diabetic eye disease, especially complex retinal pathology. In his surgical practice, he treats patients with a variety of conditions, from disabling floaters to anatomic macular disease to tractional retinal detachments. Dr. Stone has been involved in training vitreoretinal fellows as well as being an active participant in published clinical research for the past 20 years. He has been the President of Retina Associates of Kentucky since 2015, and at EyeCare Partners is Chairman of the Education Committee since 2022 and a member of the Physician Executive Board.
